TWO FULLERS IN JAIL.

One for Sixty Days and the Other Awaiting Sentence.

Tuesday morning Charles Fuller, who for a few weeks has been working for Walter Pierce, a farmer of Grand Rapids township, was early with the intention of going to help one of the neighbors in threshing. In going through the house he noticed a pair of pants, belonging to his employer, hanging in a closet. He examined them and found ten dollars in the pocket which he transferred to his own pocket. After eating his breakfast he departed for his work. His employer, Mr. Pierce, soon after missed the money and on going to the neighbor's found that Fuller had not been there. He concluded that Fuller had taken the money, came to the city, got a warrant for his arrest and hid it in the hands of Deputy Sheriff Boydland. Boydland drove to Ada, where he found that Fuller had purchased a ticket to St. Johns and taken the 11:30 train. He telegraphed the officers at St. Johns to arrest Fuller and received a answer stating that he had not left the town there. By telegraphing the conductor of the train at Owosso the Sheriff learned that Fuller had left the train at Owosso, having paid his fare from St. Johns. Boydland then telegraphed the Marshal of Owosso to arrest Fuller. The Marshal found him throwing dice in a saloon and took him into custody. He admitted stealing the money, but said he "had blown it all in" except 50 cents. Mr. Boydland searched him more thoroughly when he arrived and found five dollars under the lining of his vest. He was brought back to the city, arriving at 2:30 yesterday morning. He was arraigned before Justice Saunders yesterday, pleaded guilty and was sentenced to jail for sixty days. He is unmarried, 27 years of age and has no record.

FOR THE SOLDIERS' HOME.

Citizens Discuss the Proposition Made by the Trustees.

A meeting of citizens was held at the Soldiers' Home last night to discuss matters relating to the Soldiers' Home, and to take action in regard to complying with the requirements of the Trustees, as stated in the resolution designating the Burchard farm as the site for the Home. There were present Major A. B. Watson, Col. P. V. Fox, Esq. Mayor Belknap, Hon. Julius Houseman, Prof. Swensberg, Aldermen Pierce and Saunders, R. D. Swartout, T. J. O'Brien, William A. Berkey, Fred. D. Lyon, R. G. Mathews, W. A. Gavett of the G. & W. M. L. G. Dutton and W. T. Lamoreaux. Major Watson presided and Fred D. Lyon acted as secretary. The chairman explained the object of the meeting, and made suggestions as to the action to be taken by the citizens. He seemed to think that the question of sewerage was the most important matter to be considered. He believes that a feasible route for a sewer could be found from the proposed site to connect with the South Division street sewer somewhere south of Fifth avenue. The Trustees will require a tile sewer, not more than ten inches in diameter, and Mr. Watson said that the estimate of cost for a six-inch tile sewer laid three feet below the surface, was \$1,200 per mile, not taking in consideration the cost of right of way. The first thing to be considered, however, was the route, and a committee consisting of Julius Houseman, C. E. Belknap and R. G. Mathews was appointed to wait upon the Council and ask that the City Engineer be instructed to make a survey and profile of the most feasible route for a sewer. It was understood that the matter of transportation must be left mainly with the Street Railway Company, and it was the general opinion that if the right of way was granted the Company would be willing to extend the feed's Lake line through Fifth Avenue and South Union street to the Union Depot. Mr. Mayor Belknap, Col. Fox and William A. Berkey were appointed a committee to confer with the Council in regard to the extension of the road so that the dummy engine can be run to the Union Depot. Hon. Henry Frick was named to correspond with Hyron G. Stout, of the Reed's Lake Gravel Road Company, in relation to obtaining permission for the officers and inmates of the Home to travel the road without paying toll of the use of the road money to pay for the site and was not discussed, it being understood that the Mayor, City Attorney and Council Committee on Ways and Means are to report upon this subject at the next meeting of the Council this evening. No one present seemed to entertain a doubt that the city will be able to meet the requirements and conditions named by the Trustees, and the meeting adjourned subject to the call of the Chairman.
